I disagree with the statement that smoking should be made illegal in Japan. It is true that smoking do damage to human body and some people feel offended by others smoking. However, people have a right to decide whether they smoke or not. the right should not be violated. There must be some ways that people can live without being offended by smoking. For instance, both of smokers and nonsmokers can stay comfortable by separating their seats in restaurants. Moreover, tax on cigarets is an important income for Japanese government. Those are the reasons why I think smoking should not be illegal in Japan.
